

Clover Special Edition

Creating and Managing your Project Record Books

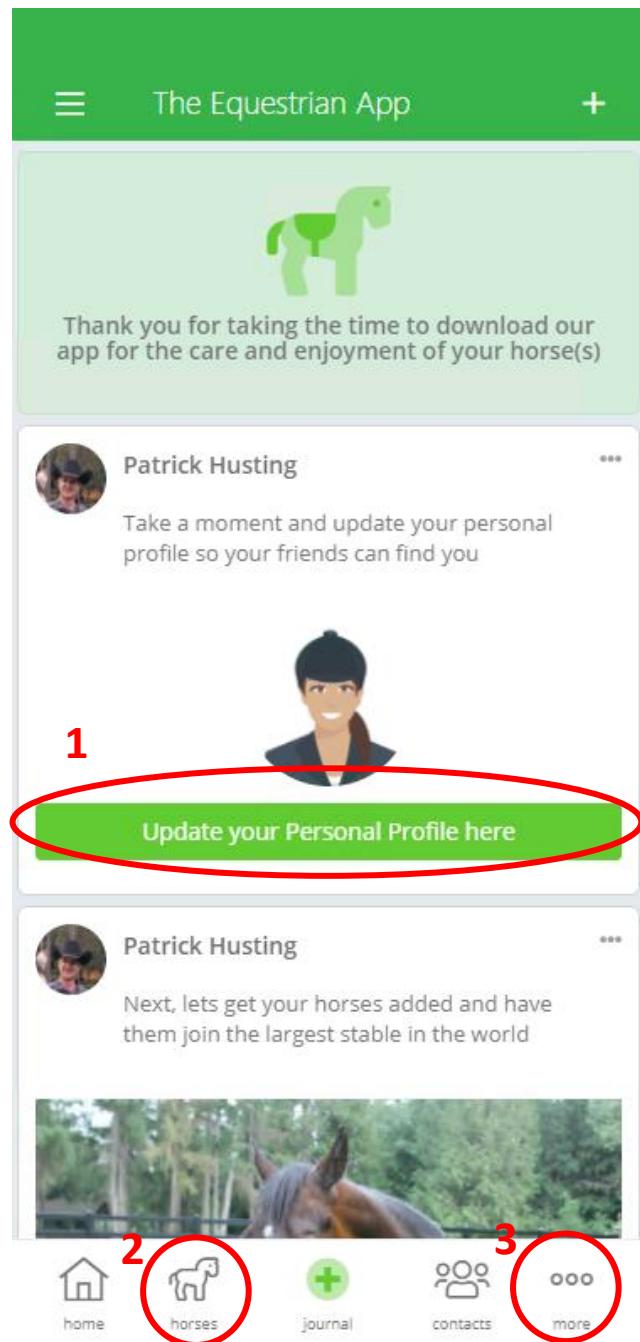

Let's get started

Thank you for taking the time to download The Equestrian App and use the Record Book feature for your Animal project. The following will help you quickly get started capturing your activities into the app. Should you run into any issues or have questions, please feel free to email me at patrick@equestrianapp.com.

First Time In

When you signup for the app, it can be a little overwhelming at first. I recommend doing these 3 things first.

- 1. Update your profile:** All information is private to you but it is a good thing to update your City and State. You can also upload a photo of yourself if you want your friends to connect with you.
- 2. Add your horse(s):** In here you can add all the details about your horse. Add as much information as you know about your horse. You can always go back to it later to change or add more information.
- 3. More Features:** In here, there are a lot of features for managing the care and activities of your horse. You'll also find the RECORD BOOK feature in here too.

Explore the app, there are hundreds of features to help manage the care and enjoyment with your horse(s).

Subscription Required

As much as we would like to make it free for everyone, there is a cost involved in providing the app and hosting of all the data and photos.

We made the Clover feature only \$5.00 a year which is basically the cost of purchasing a paper record book for one project. But in the app you can create as many projects as you wish.

If you visit the MORE features area, you'll see an icon at the bottom to UNLOCK FEATURES. In there you can tap the Clover tab and use the subscribe button you see to the right to unlock the Record Book feature.

If you choose either the SILVER or GOLD subscriptions, those also have the Record Books along with other great features for managing your equine activities.

Clover Special Edition

Get access to our Clover Special Edition that includes the ability to capture your Record Books via your phone/computer.

- ✓ Create Multiple Projects
- ✓ Journal Activities
- ✓ Capture Calendar Events
- ✓ Capture Supply Expenses
- ✓ Journal your Rides and Practice Times
- ✓ Print Approved Record Books
- ✓ Works with other Animals too
- ✓ Also available in Silver/Gold Subscriptions

[Check out our How-To Manual](#)

Helping the next Generation of Equestrians

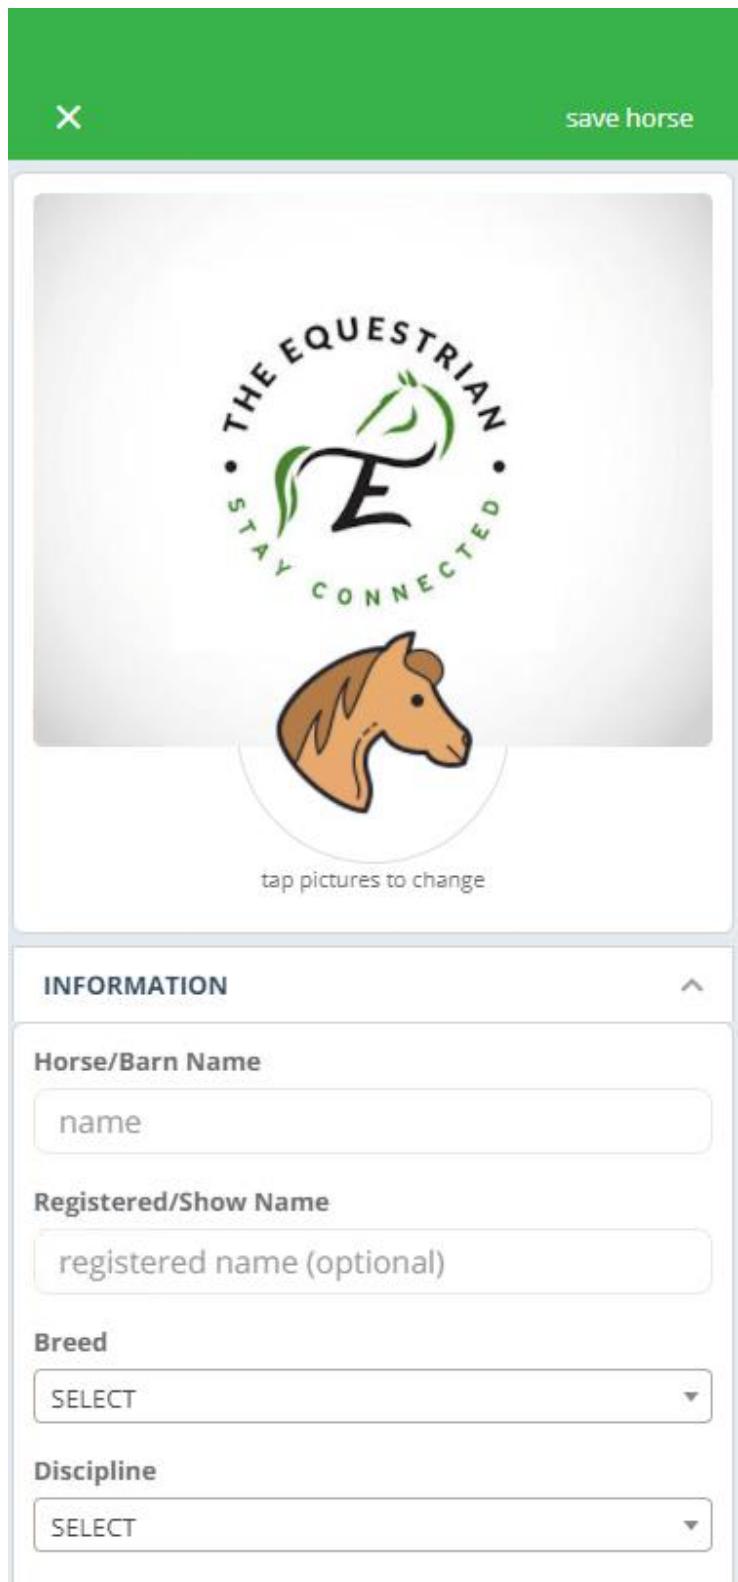

1 Year - \$5.00 USD

Adding a Horse

One of the first things you need to do in the app is create your horse. You'll need a horse in the app so that you can create your project record book.

Step

1. At the bottom of the screen, you'll see a horses icon and tap it.
2. In the upper right you'll see a + icon to add a new horse.
3. Then you'll see the screen to your right. Just fill it out as completely as you can. You can always come back and edit it later.

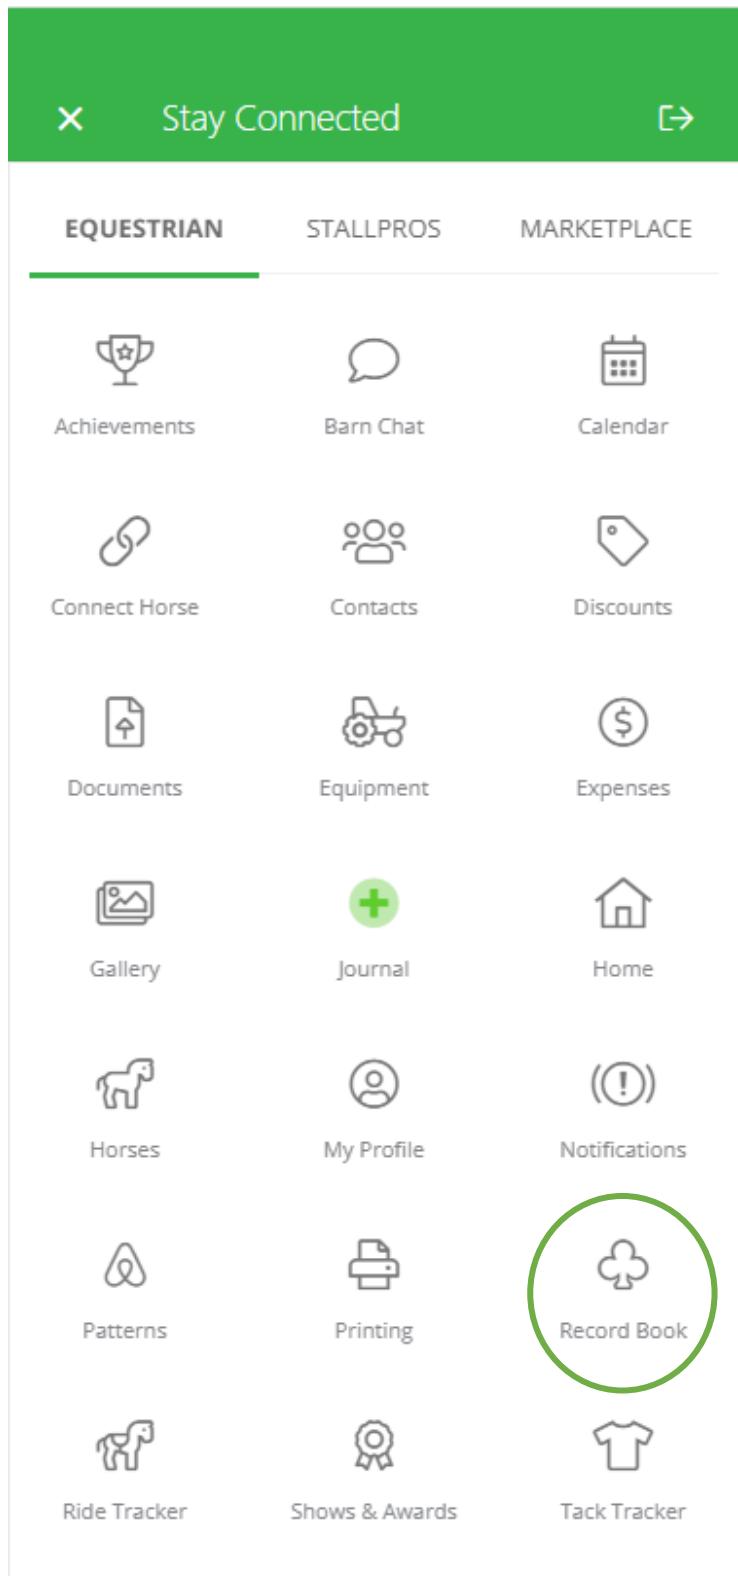

Starting Record Books

There is a lot you can do with The Equestrian App. When you tap into the MORE FEATURES icon, you'll be presented with many features that are fantastic to the horse owner and rider.

But let's get you started creating your first record book.

1. Tap the Record Book icon to get started

Your Record Books

Here you will find all your record books you have created year over year. All record books are sorted in most recently created first.

If you have several project horses, you will just create another record book for that horse. It's as simple as that.

Steps

1. At the top right of the screen, you'll see the + icon. Tap that to create your record book

Buttons

- **Delete:** this will delete your record book but not the data associated with the horse
- **Edit Book:** This allows you to edit your record book details
- **Edit Journal:** This is your personal journal of your project horse. This is where all the action is.

The screenshot shows the '4-H RECORD BOOKS' screen with a green header bar containing a menu icon (three horizontal lines) and a '+' icon. Below the header, the title '4-H RECORD BOOKS' is displayed, followed by the subtitle 'Success is a series of small achievements over time'. The main content area displays two entries, each featuring a stylized black and white horse logo. The first entry is for 'Year: 2020/21 - Maverick' belonging to 'Patrick Husting - Sr. - Fall City Flames'. It includes three buttons at the bottom: 'delete' (red), 'edit book' (blue), and 'edit journal' (blue). The second entry is for 'Year: 2020/21 - Dusty' belonging to 'Patrick Husting - Sr. - Fall City Flames'. It also includes three buttons at the bottom: 'delete' (red), 'edit book' (blue), and 'edit journal' (blue).

Record Book Details

This screen is all the information and then some for creating and managing your record book for your project horse for the year.

You'll want to fill out as much information as possible as this is required by the record book committee and you'll be scored on your completeness.

Don't worry, you can always come back and edit the information whenever you wish.

When you're done, make sure you tap the **SAVE BOOK** to save your data

Calendar Year	<input type="text" value="2020/21"/>
Level	<input type="text" value="Intermediate"/>
Years in 4-H (you)	<input type="text"/>

Let's Journal!

Okay, now that you have your record book created, let's get you started journaling.

There is a lot of information that goes into the record book so we located it all in one spot. Let's get you started by tapping the **EDIT JOURNAL** button.

Special Note: For regular activities like farrier and vet visits you can also Journal using the big green + at the bottom of the screen. You just need to select the right horse and Farrier or Healthcare category for journaling. Same with Riding activities.

The screenshot shows the 4-H Record Books app interface. At the top, there is a green header bar with a menu icon (three horizontal lines) and a plus sign (+). Below the header, the title "4-H RECORD BOOKS" is displayed, followed by the subtitle "Success is a series of small achievements over time".

The first journal entry is for a horse named "Maverick". It features a black and white graphic of a horse's head and neck. Below the graphic, the text "Year: 2020/21 - Maverick" and "Patrick Husting - Sr. - Fall City Flames" is shown. At the bottom of this entry are three buttons: "delete" (red), "edit book" (green), and "edit journal" (blue).

The second journal entry is for a horse named "Dusty". It also features a black and white graphic of a horse's head and neck. Below the graphic, the text "Year: 2020/21 - Dusty" and "Patrick Husting - Sr. - Fall City Flames" is shown. At the bottom of this entry are three buttons: "delete" (red), "edit book" (green), and "edit journal" (blue).

At the very bottom of the screen, there is a navigation bar with five icons: "home" (house), "horses" (horse head), "journal" (green circle with a white plus sign), "contacts" (two people), and "more" (three dots).

Your Record Book

Well? Does this look familiar? It should, it is just like your record book with tabs for the sections you must have.

- **Goals:** This is where you put the items you want to learn during the year.
- **Calendar:** This is where you track your club, county, state and even national related events.
- **Health:** This is your Farrier and Vet visits.
- **Project:** These are all the project activities you do with your horse. Riding, Practicing and Training activities are found here.
- **Supplies:** All the items you buy or pay for to support your project horse.
- **Highlights:** This is a great place to journal your highlights of what you learned for the year.

The screenshot shows a mobile application interface for managing a record book. At the top, there is a green header bar with a close button ('X') and a print icon. Below the header, the title 'MANAGE - 2020/21 - MAVERICK' is displayed, followed by the sub-instruction 'Here you will manage your record book'. On the left side, there is a vertical sidebar with tabs: 'Goals' (which is selected and highlighted in grey), 'Calendar', 'Health', 'Project', 'Supplies', and 'Highlights'. To the right of the sidebar, the main content area is titled 'Goals' and contains a green 'save goals' button. Below this, there is a section titled 'Want to Learn' with the sub-instruction 'This is what I want to learn this year'. A text input field is present with a toolbar above it containing bold ('B'), italic ('I'), underline ('U'), and other styling options. The text in the input field reads: 'The first thing I wanted to learn was how to control Maverick in a show setting. It's been challenging and somewhat disappointing and unsuccessful. Maverick has a difficult'. Below this section, there is another titled 'Leader Agreed' with the sub-instruction 'My leader agreed to help me learn this year'. A similar text input field is shown with the text: 'My leader agreed to help me be the best 4-H member I can be and to be a helping hand at the shows to those who need it.' At the bottom of the screen, there is a navigation bar with icons for 'home' (a house icon), 'horses' (a horse icon), 'journal' (a green plus sign icon), 'contacts' (two people icons), and 'more' (three dots icon).

Goals

The neat thing about having your goals for the year here is that you can come back and revisit them from time to time to adjust.

Steps

1. Just enter your goals like you're typing a letter. The textbox will grow should you need more typing space.
2. When you're done, make sure you tap the **SAVE GOALS** button to save your comments.

The screenshot shows a mobile application interface for managing goals. At the top, there's a green header bar with a close button (X) and a print icon. Below it, the title "MANAGE - 2020/21 - MAVERICK" is displayed, followed by the sub-instruction "Here you will manage your record book".

The main area is titled "Goals" and includes a "save goals" button. To the left of the main content, there's a sidebar with navigation links: Goals (which is selected), Calendar, Health, Project, Supplies, and Highlights.

The "Want to Learn" section contains a text input field with a toolbar for bold (B), italic (I), underline (U), and other styling options. The text in the field reads: "The first thing I wanted to learn was how to control Maverick in a show setting. It's been challenging and somewhat disappointing and unsuccessful. Maverick has a difficult".

The "Leader Agreed" section also features a text input field with a toolbar. The text reads: "My leader agreed to help me learn this year".

The "Parent Help" section includes a text input field with a toolbar. The text reads: "My leader agreed to help me be the best 4-H member I can be and to be a helping hand at the shows to those who need it".

At the bottom of the screen, there are several icons: a house icon labeled "home", a horse icon labeled "horses", a green plus sign icon labeled "journal", a contacts icon labeled "contacts", and a "more" option.

Calendar

Calendar is where you track all your 4-H events.

You'll tap the **ADD EVENT** button when you want to create an event on your calendar.

You'll then be presented with a form to record your event.

1. Enter your title
2. Select a Category
3. Set your date and time
4. Make sure your 4-H Event checkbox is checked. It needs to be checked to see in your record book.

If it is not a 4-H event but you want to capture it on your calendar, just uncheck the box.

5. Tap **SAVE EVENT**

The screenshot shows a mobile application interface titled "MANAGE - 2020/21 - MAVERICK". Below the title, a sub-header reads "Here you will manage your record book". On the left, there is a sidebar with tabs: "Goals" (selected), "Calendar", "Health", "Project", "Supplies", and "Highlights". On the right, the main area is titled "Calendar" and features a green "add event" button. A table lists events with columns for "Date" and "Event":

Date	Event
Apr 15	Event Name
Apr 23	Ranch Riding Show
Apr 24	Volunteer at Performance Show
Apr 25	Horse Judging
Apr 28	Plain Event

The screenshot shows a modal dialog titled "save event". The form fields include:

- "Add a title for the event" with a placeholder "Maverick".
- "Sammamish, Washington" in the location field.
- "Bodywork" in the category dropdown.
- "Apr 28, 2021" and "06:00 PM" in the date and time fields.
- "Apr 28, 2021" and "07:00 PM" in the repeat date and time fields.
- "No reminder" in the reminder dropdown.
- "No repeat" in the repeat dropdown.
- A checkbox for "All Day?" which is unchecked.
- A checkbox for "4-H Event?" which is checked.

At the bottom are "delete event" and "save event" buttons.

Health Records

Whenever you record a journal entry under the category Farrier or Healthcare, they will automatically appear here.

You can capture the comments, date and cost of the visit too.

This will become your digital horse health record which is important for the health of your horse.

The screenshot shows a mobile application interface for managing horse records. At the top, there is a green header bar with a close button ('X') and a print icon. Below the header, the title 'MANAGE - 2020/21 - MAVERICK' is displayed, followed by the sub-instruction 'Here you will manage your record book'. On the left side, there is a vertical sidebar with several tabs: 'Goals' (disabled), 'Calendar' (disabled), 'Health' (selected), 'Project' (disabled), 'Supplies' (disabled), and 'Highlights' (disabled). To the right of the sidebar, the main content area is titled 'Health Records' and features a green 'add care' button. A table lists three entries:

Date	Care Action	Cost
Feb 15	Farrier: Half: New shoes on the front and a trim on the back	\$100
Apr 01	Healthcare: Medications: Started some insulin supplement	\$75
Apr 19	Vaccinations: VaccinesGiven: WestNile	\$50

At the bottom of the screen, there is a navigation bar with five icons: 'home' (house icon), 'horses' (horse icon), 'journal' (green plus icon), 'contacts' (people icon), and 'more' (three dots icon).

Project Journal

Did you just finish up working with your horse in the arena? Just pull our your phone and quickly capture that activity with your horse.

Steps

1. Tap the **ADD ACTVITY** button
2. You'll be presented with a list of 4-H **Category** activities for which you can select and record your session against.
3. After you select your category, then you'll have your post form to fill out. You can enter a price, comments about your session and time spent doing that activity. Again, the more you put in, the more you get out of it.

The screenshot shows a mobile application interface for managing a project journal. At the top, there is a green header bar with a white 'X' icon on the left and a white printer icon on the right. Below the header, the title 'MANAGE - 2020/21 - MAVERICK' is displayed, followed by the sub-instruction 'Here you will manage your record book'. On the left side of the screen, there is a vertical navigation menu with several tabs: 'Goals' (disabled), 'Calendar' (disabled), 'Health' (selected), 'Project' (disabled), 'Supplies' (disabled), and 'Highlights' (disabled). To the right of the menu, the main content area is titled 'Project Journal' and features a green 'add activity' button. Below the title is a table with two columns: 'Date' and 'Activity'. The table contains five rows of data, each representing a recorded activity:

Date	Activity
Apr 14	soon: test add a little data
Apr 19	Practice: Worked on patterns
Apr 19	Riding: Practiced ranch riding
Apr 25	Riding: We did a long trail ride today
Apr 27	Personal: I did some work today or

Journal your Activity

This is the screen you will see a lot. This screen allows you to create an activity or action for your selected project animal.

You can attach photos, write a long comment, capture your time spent in minutes and also record any cost or income with your project animal.

By default, it puts in the current date, but you can change the date here if need.

Fill out as much as you can and just tap the **save post button** when done.

The screenshot shows a mobile application interface for journaling an activity. At the top right is a green 'save post' button. Below it is a row of four dashed boxes, each containing a camera icon and an 'add photo' label. Underneath is a toolbar with bold, italic, underline, and alignment icons. The main area contains several input fields: a text input with placeholder '(time spent in minutes)', a currency input with '\$ 0.00' and a red 'EXPENSE' button, a date input showing 'May 5, 2021', an animal input showing 'Maverick', a location input showing 'Ground', and a location input showing 'Sammamish, Washington'. A checkbox labeled 'Add this activity to your Calendar?' is present. At the bottom are two green buttons: 'save/add reminder' and 'save post'.

Supplies

Steps

1. Tap the **ADD EXPENSES** button
2. You'll be presented with a list of **Expense Categories** for which you can select and record your expense against.
3. After you select your category, then you'll have your post form to fill out. You can enter a price and comments about what you have purchased.

Note: If your item was considered Income, just type the expense slider and it will turn into an Income amount.

Highlights

We recommend visiting highlights monthly to capture those great moments between you and your horse.

Steps

1. Just enter your highlights like you're typing a letter. The textbox will grow in size should you need more typing space.
2. When you're done, make sure you tap the **SAVE HIGHLIGHTS** button to save the comments.

The screenshot shows the 'Highlights' section of the HorseManager app. At the top, there's a green header bar with a close button ('X') and a print icon. Below it, the title 'MANAGE - 2020/21 - MAVERICK' and a subtitle 'Here you will manage your record book'. On the left, a sidebar lists 'Goals', 'Calendar', 'Health', 'Project', 'Supplies', and 'Highlights' (which is currently selected). In the main area, there's a 'Highlights' section with a 'save highlights' button. Below it is a 'What you Learned' section containing a rich text editor with bold, italic, underline, and alignment tools. A sample text entry reads: 'I learned that no matter what happens, things can't always be perfect. I think that most of my shows I attend, I want things to go perfectly; perfect trot, perfect lope. Now I realize I need to'. There are also 'Problems' and 'Successes' sections with similar rich text editors and sample entries. At the bottom, there are navigation icons for 'home' (house), 'horses' (horse head), 'journal' (green circle with plus), 'contacts' (people icon), and 'more' (three dots).

Project Goals

YEARS IN 4-H: 40 PROJECT: Maverick YEARS IN THIS PROJECT: 19

THIS IS WHAT I WANT TO LEARN THIS YEAR
The first thing I wanted to learn was how to control Maverick in a show setting. It's been challenging and somewhat disappointing and unsuccessful. Maverick has a difficult time being away from his herd. The second thing I wanted to learn was a flying lead change. I did not experience this on Maverick, but I did on another horse. The last thing I wanted to learn was how to call Maverick to me by a whistle. I'm still working on it but things are getting better.

MEMBER'S SIGNATURE DATE:

THIS IS WHAT MY LEADER AGREED TO HELP ME LEARN
My leader agreed to help me be the best 4-H member I can be and to be a helping hand at the shows who need it.

LEADER'S SIGNATURE DATE:

THIS IS HOW MY PARENT(S)/GUARDIAN AGREED TO HELP ME LEARN
My dad encouraged me to do showmanship well. He also helped me learn how to correctly take care of the saddles. My mom helped me at a show by encouraging me to be my best and not worry about the outcome when I felt I was doing my worst when riding on Maverick in the show arena.

PARENT(S)/GUARDIAN SIGNATURE DATE:

Print Preview

When you select your report, you'll get a quick print preview of the report you are about to print. You can scroll up and down to make sure your data is correct.

When you're ready to print, in the upper right is another printer icon. That will ready the report for your printer.

Tap the Okay button to start the print.

THE EQUESTRIAN

Project Highlights

WHAT I LEARNED
I learned that no matter what happens, things can't always be perfect. I think that most of my shows I attend, I want things to go perfectly; perfect trot, perfect lops. Now I realize I need to accept what I receive.

PROBLEMS I EXPERIENCED
My horse Maverick, was very excited this year and very nervous. He does not sleep in his stall when attending a show. He barely would eat and neighed a lot. In addition to his nervousness in the stall, he was nervous in the arena by trotting or loping fast and was sometimes hard to control.

SUCCESSES I EXPERIENCED
Maverick did well in showmanship. He was always with me when I would trot or walk in a pattern. He did very good with setups.

TO DO DIFFERENTLY NEXT TIME
Unfortunately, I will not be riding Maverick in 4-H. He shows himself to be more of a ranch riding horse, rather than a show horse.

Journaling

Special Note

The power of The Equestrian App revolves around Journaling. At the bottom of the app you'll see the GREEN PLUS icon. That takes you to this Journaling screen.

There are a lot of activities you can browse and discover on your own, but the important one is your horses or animals below.

Tap your horse, let's say Maverick, and choose a category to Journal. This allows you to keep accurate and well organized journal of your equestrian activities.
